

# ASSEMBLY

## INSTRUCTIONS

# PACKAGE INCLUDES

- a** Main support 2
- b** Side 1 2
- c** Side 2 2
- d** Support 1 1
- e** Support 2 1
- f** Support 3 1
- g** Bolts 37

1

Unpack your package from the cardboard box it came in.

2

Lay out all of the pieces and assemble the box without the center support to ensure you understand where each piece connects.

**3** Next, assemble the center support as shown. From here, you have two options:

1) Add wood glue (not included) to the edges of the box pieces and reassemble, inserting the center support before gluing the top. This provides extra strength for commercial gym environments or users over 250 lbs. Next screw the box together.

2) Insert the support and screw the box together.

End Product
